

Computational Imaging Expertise – Charles Stark Draper Laboratory

My name is J.P. Laine and I am the Sensors and Imaging Systems group leader at the Charles Stark Draper Laboratory in Cambridge, MA. We are currently searching for an extremely resourceful Ph.D.-level (or potentially M.Sc.) individual who has a strong background in Computational Imaging, as well as generic experience in imaging system HW integration and test. This could possibly be a new graduate, or a person with significant work experience who happens to be looking for a new job.

I would appreciate it greatly if you could help us in this search.

Thank you very much,

J.P. Laine, Ph.D.
