

## Assoc Research Scientist - COS Center for Imaging Science

### Department Description

Position is with the Multidisciplinary Vision Research Lab in the Chester F. Carlson Center for Imaging Science.

### Description

Candidates are sought for a position focusing on the collection and analysis of data in an NSF-funded study, "An active-vision approach to understanding and improving visual training in the geosciences." The project involves eyetracking and gaze analysis, high-resolution image capture and display, and attentional modeling. The position is for one year and renewable depending on satisfactory performance and the availability of funds.

### Job Requirements

REQUIRED: Ph.D. in imaging science, computer science, cognitive science, or related field. Research publications

PREFERRED: Ph.D. and research in areas of eyetracking, computer graphics, and/or complex data analysis.

Ability to contribute in meaningful ways to the college's continuing commitment to cultural diversity, pluralism, and individual differences.

### Additional Details

The hiring process for this position may require a criminal background check and/or motor vehicle records check. Any verbal or written offer made is contingent on satisfactory results, as determined by Human Resources.

RIT promotes and values diversity, pluralism and inclusion in the work place. RIT provides equal opportunity to all qualified individuals and does not discriminate on the basis of race, color, creed, age, marital status, gender, religion, sexual orientations, gender identity, gender expression, national origin, veteran status or disability in its hiring, admissions, educational programs and activities. The following persons have been designated to handle inquiries regarding RIT's non-discrimination policies: Judy Bender, Assistant Vice President Human Resources 5002 Eastman Hall 585-475-4315 and Kevin McDonald, Vice President for Diversity and Inclusion Title IX Coordinator 7048 Eastman Hall 585-475-6795.
