

## Sr. Color Toner Scientist

**Location:** WV

**Description:** This position will work exclusively on color and value added inks. Work on Security, UV, and IR with the focus on color and specialty inks. This is a hands on formulator position. This person must also know the market, trends, and be creative. Come up with new ideas. Very creative in addition to hands on. They already have a team in place. They need someone to compliment the team.

Qualifications:

- BS in Chemistry, Engineering or related field. A Masters/PhD degree is preferred
- Min. (10) years recent experience in ink formulating (emphasis on color toner preferred)
- Proven experience in product development conceptualization and commercialization processes
- Strong communication skills and the ability to work with cross-functional teams
- Demonstrated experience in delivering high quality products
- Accountability to manage approved projects through project completion
- Strong project management skills (scheduling, planning, etc.)
- Must be able to multi-task and prioritize effectively in a fast-paced environment
- Excellent organizational skills, enthusiasm, tenacity and self motivation
- Ability to communicate effectively with raw material suppliers
- Flexibility to work outside of normal business hours (as necessary) to accomplish business objectives
