

Job Description

Huawei is a leading ICT solutions provider. Our telecom network equipment, IT products, and smart devices provide solutions in 170 countries and regions worldwide. With annual sales revenue of USD39.6 billion in 2013, Huawei ranked 285th on the Global Fortune 500. Together with our partners, we are building a better connected world.

Huawei has over 70,000 product and solution R&D employees, comprising more than 45% of our total workforce worldwide. We have set up 16 R&D centers in countries that include Germany, Sweden, the US, France, Italy, Russia, India, and China.

The Multimedia department belongs to the Huawei Device Co.,Ltd and it is responsible for providing the multimedia state of art technology for the Huawei mobile phone and tablet, especially for improving the camera and display visual performance.

Now, we are looking for the excellent candidates to join us to help improving the camera and display visual experiences to meet or even exceed the human perception.

The Job description of the key opening positions is described below. We are looking forward to YOUR join.
