

Bio: Dr. Linwei Wang is an Associate Professor in the PhD Program of Computing and Information Sciences at the Rochester Institute of Technology in Rochester, NY. Her research interests center around large-scale statistical inference and its application to biomedical signal and image analysis, with a focus on improving patient care in cardiac arrhythmia and other heart diseases. She currently directs the Computational Biomedical Lab at RIT. Her lab's research is funded by the National Science Foundation and the National Institutes of Health. She is a recipient of the NSF CAREER Award in 2014. Dr. Wang obtained her bachelor degree in Optic-Electrical Engineering from Zhejiang University (China) in 2005, her master degree in Electronic and Computer Engineering from Hong Kong University of Science and Technology in 2007, and her PhD in Computing and Information Sciences from RIT prior to joining the faculty of RIT in 2009.
