

Xu is an Assistant Professor in the Department of Computer Science at the University of Rochester. He received his Ph.D. degree from the University of Michigan in 2016, and the MS degree from SUNY Buffalo in 2012, both in Computer Science. He received his BS degree in Information and Computing Science from Nanjing University of Aeronautics and Astronautics in 2010. His research interests include computer vision and its relations to natural language, robotics, and data science. His work primarily focuses on problems in video understanding such as video segmentation, activity recognition, and multimodal vision-and-x modeling. He is the recipient of NSF BIGDATA award 2017, University of Rochester AR/VR Pilot Award, and the best paper award at SMC 2017. He is the author of refereed journals and conferences in IJCV, TMM, CVPR, ICCV, ECCV, ICSC, SMC, SPIE etc. He co-organized the CVPR 2017 Workshop on video understanding and has served as PC members for CVPR/ICCV/AAAI/NIPS/ICSC/BMVC/ACCV and regular reviewers for international journals such as IEEE TPAMI and IJCV. He is a member of the IEEE and the ACM.
